76 Old Glenham Road, PO Box 391, Glenham, NY 12527

October 2026

2026 ANNUAL HOUSE-TO-HOUSE CAMPAIGN

Dear Glenham Neighbor,

For 105 years, the **Slater Chemical Fire Company** — known throughout our community as the **Glenham Fire Department** — has proudly served Glenham as a **100% volunteer organization**. Whatever name you know us by, we are the same group of neighbors answering the call, training throughout the year, providing fire prevention education, and helping carry on the traditions that make Glenham such a special community. We are proud to serve here, and grateful for the trust our neighbors continue to place in us.

Each fall, our members personally visit homes throughout the Glenham Fire District as part of our **House-to-House Campaign**. This long-standing tradition gives us an opportunity to say thank you, ask for your voluntary support of our Annual Fund Drive, share a simple fire-safety reminder, and — just as importantly — ask our community to consider becoming part of the volunteer fire service.

A NOTE ABOUT THIS FUND DRIVE: This annual request is completely separate from the taxes you pay to the Glenham Fire District. It is not a tax, bill, or assessment. Contributions to this campaign are voluntary donations made directly to the Slater Chemical Fire Company / Glenham Fire Department and are used for our members and for the community-centered programs, activities, traditions, and efforts our volunteers provide. Your generosity helps strengthen the people behind the fire company and the connection we maintain with the community we serve.

Our greatest long-term need is people. Like many volunteer fire departments across the country, our membership is not what it once was. To remain strong, capable, and ready to serve Glenham in the years ahead, we need new volunteers from our own community to continue stepping forward. If you have ever thought about joining — or if a family member, friend, neighbor, or coworker may be interested — please visit **www.glenhamfire.com**. You can learn more about us there and begin the membership application process. Even sharing that website with someone who may be a good fit can make a difference.

For generations, Glenham residents have stood behind their volunteer firefighters, and that support has allowed our company to remain more than simply an emergency-response organization. Our members take great pride in fire prevention programs, community events, local traditions, and the everyday work of keeping a strong volunteer organization together. Every donation, every new member, and every word of encouragement helps us continue that tradition.

As we enter the fall and heating season, please take a few minutes to test your smoke and carbon monoxide alarms, review your household escape plan, and have heating equipment and chimneys inspected as appropriate. **In any emergency, call 911.**

> ***"An ounce of prevention is worth a pound of cure."*** *— Benjamin Franklin, writing about fire prevention*

Thank you for taking the time to read our letter and for supporting the men and women who volunteer to serve Glenham. Please enjoy the enclosed pen as a small token of our appreciation. We sincerely hope you never need us in an emergency, but if you do, we want the people answering that call to continue to be your neighbors. With your support — and with new volunteers joining our ranks — we can keep **"Protecting the Hamlet"** for generations to come.

Sincerely,
John Steele, Chairman
House-to-House Committee
Slater Chemical Fire Company / Glenham Fire Department
